

# Facial Acupuncture

Facial Acupuncture is a chemical free, natural approach to anti ageing, without the risks and downtime associated with invasive procedures. It is a safer alternative to Botox or surgery.

Cosmetic acupuncture uses the body's own healing mechanisms to stimulate the production of collagen.

- Softening deeper wrinkles
- Reducing fine lines
- Lifting & toning muscles
- Evening skin tone and texture
- Reduction of under eye bags
- Complexion improvement
- Improved skin hydration, circulation and vitality
- Improves elasticity
- Clears acne, calms rosacea, reduces puffiness
- Promotes better collagen
- Reduced jaw tension

Needles do puncture the skin, the needles are very fine and intradermal needles are used along lines. It is similar to micro needling. It is a positive micro trauma which stimulates lymphatic and circulatory system. There are no complications other than occasionally a small amount of bruising, puffiness and bleeding.

Contraindication ~ Pregnancy, haemophilia, contagious skin disorders
